2. The number and type of articles of voting equipment obtained with the funds:

There were no purchases of voting equipment in this Calendar Year. We expect that there may be a few additional purchases of vote tabulating machines in 2006 for municipalities that approve the use of machines in place of hand count.

3. An analysis and description of the activities funded to meet HAVA requirements and how such activities conform to the submitted State plan:

Vermont has spent a total of \$753,685.27 during this period and a cumulative total of \$1,402,356.59 of the early out money which Vermont received. During this period (calendar year 2005) the following activities were funded to meet HAVA requirements in conformance with our Vermont State Plan, promulgated July 28, 2003:

- A. Pages 3 & 17, Vermont State Plan: \$175,200.88 was spent in this reporting period to improve the administration of elections for federal office by purchasing hardware, software, and training for state information technology staff to develop the statewide checklist for voters and to train municipal clerks on the use of this system;
- B. Pages 12 and 13, Vermont State Plan: Improve privacy and independence for disabled voters by purchasing and providing accessible voting stations (voting booths) to many municipal jurisdictions in Vermont with an expenditure of \$59,250.00. This is a continuing program and additional accessible voting stations may be provided with funds in the next reporting period, and some may be provided in future years as needed.
- C. Pages 4 & 17, Vermont State Plan: Purchase and Installation of a voting system for each polling place in Vermont that is accessible to persons with disabilities including blind and visually impaired persons. Vermont spent \$584,250.00 to purchase and install the IVS Vote by Telephone system, and an additional \$611.47 for costs of the October 5, 2006 demonstration of the vote by telephone system for our persons with disabilities advisory committee and invitees.
